Term note: Peak Chapters are longer zodiacal releasing peak periods returned by the engine. Life Shifts are loosing-of-the-bond markers. Timeline activity counts report events, interval boundaries, and source peak windows equally; it does not measure life change.

Cover stat note: Chart Ruler counts annual profection rulers across normalized year rows. Peak Chapters and Life Shifts preserve engine-returned rows. Long Chapters rank clipped major-period spans by duration. Ruler Presence Duration (ruler_presence_duration.v1) sums unweighted clipped days by ruler and technique; overlapping layers can exceed the report range. Timeline Activity Count (timeline_activity_count.v1) adds events, interval boundaries, and source peak windows with equal weight. Marker Display Emphasis (marker_display_emphasis.v1) affects layout only.
